BIG HAM SMILE ENTERTAINMENT.

Ministerial, Christian Endeavor and Sunday School Convention Held with Glowing Success—Personal, Society and General News.

Cairo, Ill., Special.—The death of Granville Childs was a shock to his many friends in this community. On Saturday, June 21, he went to Chicago to have an operation performed, which was done, and from some unknown cause he met his death. He was a favorite of the better element of our people and was beloved by all who knew him. He was an old citizen of Cairo and had been in business here for a number of years. He was a musician of great ability, being a leader of both a brass and string band. His remains were laid to rest in the Cairo cemetery, and were accompanied by the brass band of Charleston, Mo. Jake Young, our popular undertaker, had charge of the funeral, and deserves great credit for his excellent management. The coroner's verdict has not yet arrived from Chicago, hence we cannot give full details, but will treat the matter fully next week. Deceased leaves a wife, mother and daughter to mourn his demise. Mrs. Suella Walker has barbecued meat every day and night at Fourteenth and Commerce avenue. If you want to have good crowds at your entertainments, get Overby's orchestra, as it is in the lead. Wanted Negro Servants North.

Normal, Ala., Special.—Prof. Councill has been receiving a great many letters from Nebraska, Illinois and other states asking for Negro servants. This week he has a very urgent letter from a lady in Potsdam, N. Y., asking him to try to get up a colony of various kinds of servants for that section. The writer asks that a "black mammy" be selected for her. These letters are very significant, and indicate clearly that where prejudice does not interfere, there is a wide field for competent Negro servants; and they will not only continue to be the preference of the South, but the North, East and West will gladly welcome the honest, faithful, loyal and competent Negro everywhere.

NEGRO CITIZENSHIP!

THERE CANNOT BE TWO GRADES OF CITIZENS IN AMERICA.

NEGRO'S ADVENT NOT VOLUNTARY

The White Man's Sense of Justice has Been and Sill is the Chief Force Influencing Laws and Customs Favorable to Colored People.

EDITOR FREEMAN:—If there ever was a time when the colored citizen should take a decided and aggressive part in helping to settle the many questions that arise from the impact of the white and colored citizens of our country, this is the hour.

This is the white man's country, not only by right of discovery and conquest, but by every other recognized claim. He founded the nation and has instituted and developed the government. The Chinaman is excluded from the privelege of citizenship and to an extent is denied even the privilege of residence. That the same course is not pursued toward the Negro is due to the fact that his advent was not voluntary. While the granting of citizenship to the Negro and his descendants is strictly in accord with justice, the fact is that the acceptance of the condition that results puts the noblest qualities of the white man to the severest test. Thus far no state, city or community where the conditions have been strained have been able to live up to either the letter or the spirit of the law. In all such communities there are many individuals who are at heart just, but they cannot prevent outbreaks upon the part of others. Governors, judges and sheriffs have found themselves powerless to control the "mobs" which have been arrayed by "actual feelings" against a more or less abstract principle.

If the time ever comes when the white man of this country accepts the black man as a fellow citizen on terms of equality, it will be a triumph of justice over race prejudice such as the history of man has never before furnished.

While it is true that the white man's sense of justice has been and still is the chief force influencing laws and customs favorable to colored citizens, yet it must also be remembered that apart from the mere desire to deal justly, the white man is bound to be influenced by considerations of his own welfare and of the welfare of the country in dealing with the colored citizen. In the end he must accept the black man as a fellow citizen and accord him equal rights and protect him in the enjoyment of the same. There cannot be two grades of citizenship in this republic. The Negroes can neither be segregated nor deported. They are here as citizens and must be dealt with as such. If it were possible to deal with the Negro in any other way than as a citizen, the question would be settled in short order. That class of white men who are swayed by prejudices and sentiment rather than by the dictates of sober judgment and the sense of justice, have been and are doing all things possible to fix the status of the colored citizen, but that class cannot prevail. They have in the past and at the present time still are subjecting the Negro to many hardships; they may continue to do so for many years, but the end will come.

The colored citizen has it in his power to shorten the period of his oppression and suffering and to hasten the day of his prosperity. He will, however, be unable to make any great progress toward this until he becomes able to calmly recognize the plain facts and to be guided by sober judgment.

The three chief lines along which progress should be made are those that will secure for the race greater economic efficiency, more social and political modesty and increased moral and intellectual soundness and strength.

FARM AND HOME

The Product of Corn.

The grain of corn affords equally wonderful possibilities. There are thirty odd products made from it, as follows: Six kinds of mixing glucose, used by refiners of table syrups, brewers, leather manufacturers, jelly makers, fruit preservers and apothecaries; four kinds of crystal glucose, used by manufacturing confectioners; two kinds of grape sugar used by brewers principally, and tanners: anhydrous sugar, used by ale and beer brewers and apothecaries; pearl starch used by cotton and paper mills; powdered starch, used by baking powder manufacturers, coton and paper mills; refined grits, used by brewers instead of brewers' grits; flourine, used by flour mixers without detriment; four kinds of dextrine used by fine fabric, paper box. mucilage and glue manufacturers, apothecaries and many others requiring a strong adhesive agent; corn oil, used by table oil mixers, lubricating oil mixers, manufacturers of fiber, shade cloth, paint and similiar industries where vegetable oils are employed; corn oilcake, used in gluten feed, chop feed and gluten meal for cattle feeding purposes; rubber substitute used in the place of crude rubber, and extensively used; corn germ, from which oil and cake are obtained; British gum, a starch which makes a very adhesive medium, used by textile manufacturers who require a very strong adhesive medium that contains no trace of acid; granulated gum that competes with gum arabic and is used successfully in its place; distilled spirits, used in the manufacture of smokeless powder; fusil oil, used in the manufacture of bourbon whiskey; alchohol for commercial uses in the manafacture of cologne, spirits and high wines; corn meal for food purposes; corn down, the brown husk or outer coating next the cob, used in the manufacture of mattresses.

Chance for Eastern Farmers.

The high price of cattle is leading many of our New England farmers to raise their calves and to use more steers and oxen on the farm; and, in fact to be in line to have more cattle to sell year by year. This is a healthy sign for New England agriculture, as nothing seems to be such clear gain as turning off a pair or two of fat cattle every year. Cattle raising has been too much neglected in the New England States during the past twenty years, and it is a pleasure to note that on many farms cattle husbandry is again coming to the front. No better beef in in the world is raised than that which is pastured on New England hillsides, even if it is topped off with Western corn, though we believe that cattle husbandry will lead to large areas of corn fodder and corn to be harvested in the grain. Nothing seems to improve the farm faster than increased attention to the producing of beef and raising the necessary fodder crops and grain crops.

How English Poultry is Fattened.

It is very interesting to receive sid by side with this book a forcible protest from Heathfield, in Sussex, against the barbarous practice of cramming chickens for market. I have discussed the matter in truth before now, and I confess I am surprised that the Society for the Prevention of Cruelty to Animals has never taken it up. Mrs. Montague Fowler illustrates her book with pictures of the instruments of torture in use in Brindisi when she first went to work there, but I do not know that her picture contains anything much more horrible than one which may sometimes be seen in the advertising columns of journals devoted to agricultural matters—the illustration of the machine by means of which, working a pedal with his foot, the poultry grower forces food down the throat of a wretched fowl. My Heathfield correspondent asserts that the crops of chickens are frequently ruptured by this process. Probably the pumper in his own interest, endeavors to stop short of that result as a general rule, but at the best the process must be one of torture.

Even those who do not consider the matter in this light may perhaps be moved by another consideration. It seems to me to stand to reason that the flesh produced on a chicken by such unnatural means cannot possibly be healthy. It is much esteemed, I know in the London market but it differs essentially from from the flesh of a bird nourished by normal means, and it must be more or less diseased flesh. Such meat can hardly be wholesome. It may possibly be tasty to a jaded palate, but in that case, the palate which enjoys it is more or less diseased, too.

Clean, Cold Milk

A New York dairy, a New Jersey dairy and an Illinois dairy each sent milk to the World's Exposition at Paris in 1900 which was sweet 15 to 21 days after it was drawn from the cow. How are these things possible? By extreme care in excluding dirt of every kind with its load of bacteria then keeping the milk so cold that the bacteria which do get in spite of the care cannot grow rapidly.

Milk sours because in the process of growth and multiplication of the bacteria the milk sugar is changed to lactic acid. When there is enough acid to be apparent to the taste the milk is said to be sour. Bacteria like corn or any higher form of plants require food, moisture and sufficient heat in order to grow and multiply. Milk has the neccessary moisture, is a perfect food and is usually at the right temperature for the rapid growth of bacteria. Since the keeping quality of milk bears a direct relation to the bacteria which gain access it is important to prevent their getting into the milk. The udder and adjacent parts of the body which are much shaken during the milking is one of the chief sources of infection, while the dust of the stable, the hands and clothes of the milker, together with pails and cans used are only slightly less important sources. Experiments show that:—Milking in a stable where the circulation of air can carry the dust out; wiping the udder with a damp cloth and scalding utensils with live steam or boiling water, will not only reduces the bacterial content of the milk but increases the keeping capacity of the milk materially. A covered milk pail with only a small opening to milk into, reduced the number of germs falling into the pail one-fourth as compared with a common pail, and the milk kept sweet twenty hours longer. Immediate cooling after milking is next in importance. Milk allowed to stand two hours without cooling contained 23 times as many germs as when the milking was finished, while that which was cooled to 54 degrees only had four times as many at the end of two hours. This emphasizes the importance of quick and thorough cooling.

Milk when first drawn has a peculiar flavor, or "cowey taste" more or less noticeable, which if not driven off by aeration (exposure to the air) frequently gives the milk an unpleasant taste even before it becomes sour. Aeration may be accomplished by stirring or by pouring from one vessel to another. The can of milk may be set into a tub of water to cool. The cooling and aeration may be better and quickyr accomplished by running the milk over a combined cooler and aeriator, such as the Star, Champion, Perfection or other similar aparatus having provision for running cold water through it. Finally, cleaner cows, cleaner milkers, scalded utensils, quick and thorough aeration less exposure to dust of the street when delivering. will increase keeping quality of market milk. If properly done one delivery a day will be all that is nescessary. H. E VAN NORMAN,

Dairyman.

FARM NOTES.

Lima beans demand considerable potash and lime. Wood ashes are consequently beneficial to them, but if ashes are unobtainable the potash salts will be found excellent. A light application of nitrate of soda will give the young plants a good start.

The greater part of the nutriment of the clover plant is found in the leaves. When this hay is cured in the ordinary way, the leaves become dry and brittle and are lost upon the field. Clover should be cut when dry, and be soon bunched up and cured in the cocks. Turn the hay over the second day and put it in larger cocks.

The fall is the time to clean the well. Because water is clear is no reason to supposing it to be absolutely free from impurities. All surface water should drain away from the well and it should be protected against toads and insects. Anything that will dissolve in water will go wherever the water goes. The filter removes only the suspended matter.

To prepare for turnips the land should be plowed deep. Some may suppose that the turnip will grow under any conditions, even when the soil is plowed but a few inches but the fact is that the turnip sends its roots deep into the ground and is a gross feeder. When turnips are plowed under they return a large amount of fertilizing material to the surface soil that is secured lower down than the plow reaches.

Instead of the usual cover crops some farmers prefer to have the land cultivated in the summer, thus killing weeds and permitting moisture and air to enter the soil, the stirring of the soil protecting the roots of trees. Late in the summer, about August or after danger of draught is over, clover is seeded and left until spring, the scarlet or crimson clover being preferred. If the land is left in sod as a cover crop it is claimed that the demands of the grass crop for moisture and plant food in summer injures the trees.

A poultry journal says: "Its a good plan to sell eggs for hatching? A number of fanciers have decided that it is not. They have two main reasons for this: First they dislike the "kicks" that are sure to develop in this line of trade; second (and of more importance), many of them do not like to sell for the price of a sitting of eggs, thirteen chances of securing the best bird produced from their yards during a given season. The buyer of eggs also asks, "Will it pay?" If he has 'good luck,' his vote will be in the affirmative; if not, he will join the ranks of kickers or will hum to himself that old familiar air, 'Meekly wait and murmer not,' and the next season will try again."

Attacked by Hoodlums.

Buffalo, N. Y., Special.—While returning home from the Central depot about 1 a. m, June 14th, William P. Rhodes, proprietor of the hotel, No. 55 William street, in company with his bartender, Wm. Dorsey, and his housekeeper, coming up Michigan street near the corner of Eagle, they were insulted and set upon by a gang of white hoodlums, Mr. Rhodes being badly beaten. After a few minutes an officer appeared on the scene and had Rhodes sent to the Emergency hospital, then arrested the other two, his companions, and Judge Rockaford fined them both $5 00 apiece next morning. The white brutes even escaped arrest. There was a meeting held in Mr. Rhodes' parlors on the evening of the 21st and a number of colored citizens formed resolutions to denounce such justice and further the unity of the better class of colored and white citizens of Buffalo. While Rev. Giles was holding services in the Vine Street A. M. E. church, Sunday, June 22d, J. W. Peterson was holding a Methodist meeting in the lodge room of the Afro-American Investment Company. Mr. Peterson's flock is a split from the Vine Street A. M. E. church caused by the removal of Rev. Dr. Johnson, who is now in Elmira, N. Y. Six of the trustees have sent in their resignations. Rev. Giles and Elder Ayler prefered charges against Dr. Johnson for not handing in report to his successor and non-payment of a debt of $10 00. There is no talk of peace as yet between these two factions. Those that attended the dance at Teck Theatre hall on the 19th had a very pleasant time.

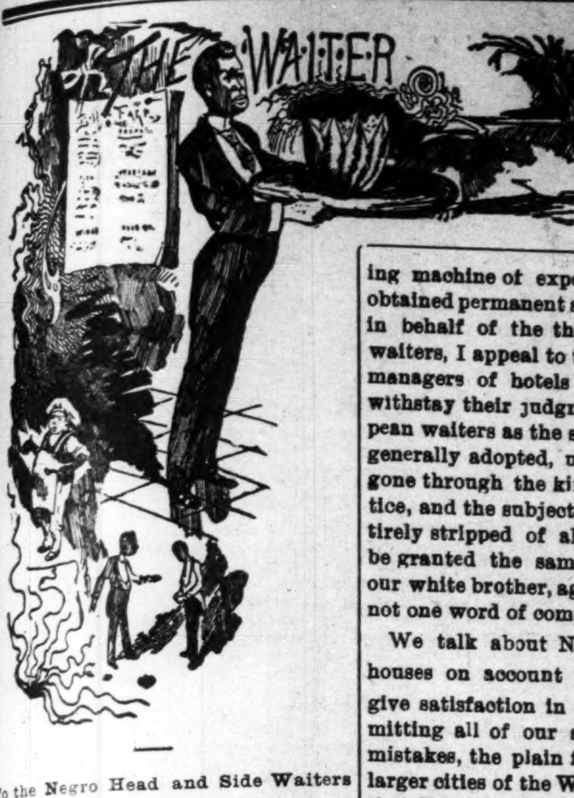
The five-cent packet is enough for an ordinary occasion. The family bottle, sixty cents, contains a supply for a year.



To the Negro Head and Side Waiters of America.

Dear Brethren—For the past eight months the Waiters' Department of The Freeman, the Hotel World and the Hotel Life have been filled with letters touching upon the rise and fall of the Negro waiter, the many causes why he succeeds as a waiter and the various reasons why he fails as such. It has been asserted by some that as an American plan waiter we cannot be excelled for politeness, relative memory, swiftness, etc. For the acknowledgement of the above let us be truly grateful, but it has been heralded abroad by some of our own leaders that when it comes to the European service we are a complete failure from the fact that we have not the required knowledge for the above service. Some appear to believe that with six months' training the Negro waiter should come forth a full blown rose of success, but they forget the important fact that the humble farmer, who tills the soil, the brick-mason, who turns the corner of the building, the brawny blacksmith, who pounds upon his anvil until the iron comes to the desired shape; in fact men in every avocation of life had to go through the thrashing machine of experience before they obtained permanent success. And now, in behalf of the thousands of Negro waiters, I appeal to the proprietors and managers of hotels and restaurants to withstay their judgment of us as European waiters as the service is just being generally adopted, until we shall have gone through the kindergarten of practice, and the subject shall have been entirely stripped of all prejudice and we be granted the same consideration as our white brother, against whom I have not one word of complaint.

We talk about Negro waiters losing houses on account of his inability to give satisfaction in service. Now, admitting all of our short comings and mistakes, the plain fact is this: In the larger cities of the West and East where the foreign travel predominates the hotels and restaurants prefer our white brother as waiters from the fact that a large proportion of them speak the different languages, which is a great help to the guest and a financial benefit to the places employing them. Now, to be more specific, take the city of New Orleans, where a large percentage of the native born Negro waiters speak the different languages, you will find only one first class hotel employing Negro waiters. So you see, boys, after all, in many instances, it is simply a matter of choice. My advice is, boys, stop complaining, do the very best we can and we will hold any house the people want us to hold.

Another article that I must refer to—Some of us have attempted to inject the color question among ourselves. Now, brethren, that will never do. We must remember that when a proprietor, manager or steward desires to engage a headwaiter it is with them as it is with other people, a matter of choice as well as ability. There are very many houses that prefer the services of a light colored headwaiter at any cost, while there are others that prefer the black man; but, boys, you know that the preponderance is on the other side, and we may agitate the question until the sun of time goes down; all the power of eloquence will never change it. Boys, mark what I tell you. Whether we have coursing through our veins one-eighth or whether there flows through them the full amount of Negro blood, we are all placed in the same category and we are all standing on trial before this American people. No time to quarrel about color. I notice also with much regret that some want to complain about white headwaiters being over Negro side waiters. Boys, I keep on telling you we cannot reverse this, for there is an unwritten law that will never admit of it being turned the other way. There are plenty of good men on both sides.

And now to my brothers again—Let us stop contending about who is the greatest among us, but let us, as individuals, by our teachings, advice, precepts and by our very lives make the dining rooms over which we are permitted to preside the greatest schools of learning for the Negro waiter, thereby preparing him for the modern service which the 20th century hotel demands. But, in order to be fully prepared, we must educate, economize, build, own something, otherwise there is no use to agitate.

And now, boys, you who have strayed away from home, don't forget mother. She is watching for you. Send her a handkerchief sometime. All the other children are at home but you. Father longs to see you. P. H. BUSTER

BUSINESS MEDIUM.

MRS. MARTH, the world renowned and highly celebrated business and test MEDIUM, reveals everything. No imposition. Can be consulted on all affairs of Life, Business, Love and Marriage a specialty. Every mystery revealed, also of absent, deceased and living friends. Removes all troubles and estrangements, challenges any Medium who can exceed her in her startling revelation of the past, present and future event in one's life. Remember, she will not, for any price, flatter you; you may rest assured you will gain facts without nonsense. She can be consulted on all affairs of Life, Love, Courtship, Marriage, Friends, etc., with description of future companion. She is very accurate in describing missing friends, enemies, etc. Her advice upon sickness, change in business, journeys, lawsuits, contested wills, divorce and speculation is valuable and reliable. She reads your destiny—good or bad; she withholds nothing.

MRS. MARTH tells your entire life—past, present and future—in a DEAD TRANCE, has the power of any two mediums you ever met. In tests she tells your mother's full name before marriage, the names of all your family, their ages and description, the name and business of your future husband, the name of your next, if you are to have one, the name of the young man who now calls on you, the name of your future husband, and the day, month and year of your marriage—how many children you have or will have—whether you are married or single; whether your present sweetheart will be true to you and if he will marry you; if you have no sweetheart, she will tell you when you will have, and his name, business and date of acquaintance. ALL YOUR FUTURE will be told in an honest, clear, plain manner and in a dead trance. Mothers should know the success of their husbands and children, young ladies should know everything about their sweethearts or intended husbands. Do not keep company, marry or go into business until you know all, do not let silly religious scruples prevent your consulting.

Madame is the only one in the world who can tell you the FULL NAME of your future husband, with age and date of marriage, tells you whether the one you love is true or false.

There are some persons who believe that there is no truth to be gained from consulting a Medium, but such beliefs are contrary to the truth. It is only from the lack of discrimination that such a conclusion can be reached. It is not everyone who placards himself or herself as a Medium that can stand a test of what he or she claims. And a person of any enquiring mind may ask the reason why. It is simply that these advisers do not take the trouble to study human nature. They do not spend their thoughts for a moment with acquiring the art of phrenology and kindred branches that will have a tendency to make the pathway to the road of the business clear and devoid of obstacles.

It is an undeniable fact that persons will come for advice—in full knowledge of what they want to know, and yet as soon as they confront a Medium they try their utmost endeavor to dispel from their minds what they know so as to hear if it will be rehearsed by the Medium. To get the secret out of a person by "pumping," in no few cases, is the art used by many unprincipaled Mediums, but to take hold of the hand and gain control of the mind thereby, is a matter of impossibility to most of them. And yet this can be done, and by consulting MRS. MARTH this seeming mystery becomes a realization.

This subject has received no little attention by eminent men and even college professors. So it proves conclusively that although there are infringers in our midst with "oily tongues," perhaps, the gates of wisdom have not been closed to the entire profession.

It takes a great deal of study to become an accomplished Medium, and by a continuous and untiring effort, the key to the well of apparently unfathomable mysteries have been procured by MRS. MARTH for the benefit of humanity. By letter, advice $1.00. Hours from 10 a. m. to 9 p. m. All letters must contain stamps for answers.

MRS. M. B. MARTH.

One of the Best of His Kind.

Thomas H. Frame, headwaiter at the Knutsford, Salt Lake City, Utah, is one of the best of his kind, and several ideas which he has introduced into the Knutsford dining room have been followed by leading hotels in different parts of the country, which speaks much for his ability and enterprise. Last summer he introduced something new and original by appearing in the dining room in a white shirt waist and light English trousers, and hotel men far and near complimented him on the neat appearance he made. This year his entire crew at breakfast and lunch look decidedly neat and clean in white military uniforms, while Mr. Frame himself wears a light double-breasted flannel suit. At dinner they all appear in the conventional black and are said to be one of the neatest appearing and best trained colored crews in the country.—Omaha Hotel Reporter.

A Very Pleasant Event.

Rochester, N. Y., Special.—The most important event of the season was given by the Bellman's Social club of this city on June 19th, at the Royal Arcanum hall. The hall was handsomely decorated for the occasion with palms and potted plants. About 9:30 p. m. the young social set began to assemble in full dress (shirt waist) where the sweet strains of Prof. Musse's orchestra could be heard to the delight of the lovers of the fantastic toe. The committee did all in their power to make the shirt waist reception and ball a success. At 12 o'clock sharp the grand march begun, which was led by C. K. Sherman and Miss Eva Smith, of Syracuse, N. Y., and was followed by about forty couple. They then entered the refreshment room and partook of a bounteous feast prepared. The out-of-town guests in attendance were Miss Ida Scott and Mrs. J. Keys, of Syracuse; Frank Price, of Hampton, Va.; Miss G. Frank, of Geneva, N. Y. James Robinson, of Hampton schools, is in the city. S. Keys, sargeant-at-arms at the shirt waist entertainment, met with a serious accident on that evening. The Freeman is for sale every Saturday at Epps' barber shop, 139 Main street.

The Lone Star State Has Great Time.

Houston, Texas, Special.—This city had its social whirl last week, and many young and old enjoyed themselves side by side. The Seymour Division, Bluitt's Rifles and the Dallas Express Zouave Company put up a crack exhibition drill Emancipation day at the Fair grounds, and they distinguished themselves as veteran tacticians on parade. No Freeman on "hot air." Five cents per copy, delivered at your door. The cash in hand and the news is yours. We note with interest that a large number of K. of P.'s are determined to organize a company and drill team by selecting from the five lodges. Captain A. A. Hudson, Capt, H. J. Jackson and Griffin are the promoters and ask the support of all K. P's. Mothers, stop your children from idling among loafers who set around places of ill repute; they catch onto too many sayings that will put them on the chain gang when they should be at school or at home working. Get The Freeman at 105 Central avenue, between Main and Elm streets; five cents. Miss Irene James entertained Wednesday evening, the 18th, from 8 to 12 o'clock in honor of Mrs. A. E. Overton and Miss O. M. Douglass, who left Friday for Sedalia, St. Louis and Kansas City, Mo. Mr. Joddia Elliott, a veteran waiter, and Miss Lulu Pickard were married at the home of the bride's parents on Sunday evening, June 22. They were the happy recipiants of many costly presents. "Say, Freeman man, let me have a Freeman," was all you could hear at the Oriental hotel on Monday among the waiters, bell boys and Wall street readers. The citizens generally observed Emancipation day in one of those old-time ways, meeting and shaking hands and eating together; but the new woman and fly dudes drink, get full and start a jamboree and have to work their fines out together. We are glad that there was very little of that in Dallas on the 19th. Sheriff Johnson and the committee looked after the peaceable side of the proposition and were on the grounds for peace and order. Ben Duncan, the man of minstrel fame, is here with the goods, and sends greetings to all in and out of the profession. Many Dallasites send greetings to Pitman and Jordan, with the New Orleans Minstrels, and S. H. Dudley and wife. There are many Dallasites that would like to know if it is true The Freeman is to have a permanent home in Dallas? The answer comes from its Dallas general headquarters, 105 Central avenue, between Main and Elm streets: Yes, as long as the people will pay for the support of it with the long green; you will find it at your homes and business places. Tell your friends so they can come into The Freeman band of readers. You will be behind if you don't read The Freeman and the general news of the country in each issue. Hon. H. C. Bell of Denton, Texas, grand master of the Odd Fellows of Texas, is paying the various lodges of that order his annual visit. Jim Roberts, the prince of headwaiters, says always bring me The Freeman. Henry Howard of Penosha, Wis., was here attending to the funeral of his brother, Tom Howard. Robert Armstrong and A. W. Washington, ex-Dallasites, paid us a call while here from Chicago. They will visit relatives in Jefferson before returning to the Windy City. Mrs. Susan Bolden and daughter Margarette are visiting in Austin for two months.

News Notes.

Springfield, Ill., Special.—Ed Proser, one of our most estimable young men, has gone to Mackinac, Mich., for a few months. The entertainment of the Culture club was quite a "swell" affair. The mass meeting at Odd Fellows' hall, Saturday night, June 21, was very largely attended. Dr. S. A. Ware made a spirited talk on the Patrick Henry order. T. L. Smith was chosen chairman and E. L. Rogers secretary. The meeting condemned the Eldorado and Harrisburg affairs and heartily endorsed the actions of Governor Yates. Walter Burt and Wm. Barbour went to Chicago on the 21st. Mr. and Mrs. Hickman, who were shot by Mr. Hickman and supposed would die, are both living yet. Louis Baker was in St. Louis on Sunday, the 22d. Mrs. Comptroller Ridgely was buried last week.

Missouri Happenings.

Ironton, Mo., Special.—We are having very cool weather; more like winter than summer. Miss Flora Boyd is still on the sick list. Mrs. Mary Polly is improving and will soon be about. An excursion from Poplar Bluff, Ark., to St. Louis on Sunday, the 22d, carried quite a number of Ironton people. There was a grand barbacue and picnic here June 28th, and all present had a splendid time. Lillian Collier has returned from Lincoln Institute, and reports that they had a larger number of graduates than has been known in the history of Lincoln Institute. President Clark is a fine man, and has done grand work this year. A grand dormitory for the young men is being erected, and they will have more room and be more homelike than in past years. Rev. Smalley and wife were called to Clarksville on account of illness of relatives.

BISHOP ALEXANDER WALTERS.

The lecture of Bishop Walters in this city, June 22d, was heard by a large and appreciative audience. After reviewing the slavery period from the advent of slavery in 1620 until the utterance of the immortal proclamation, the bishop then entered into his subject proper—the Emancipation. He spoke of that order of individuals, Wm. Lloyd Garrison, Wendell Philips, Harriet Beecher Stowe, Lovejoy and others who were the forerunners of that other revolution wherein were emancipated more millions than were relieved in the struggle with England. He thought that the age was ripe for the newer Johns the Baptist with spirits like like unto that of John Brown, those who are willing to sacrifice personal happiness and convenience on the altar of the race. Those before the war contended against slavery until it fell. "Was it right then to oppress members of the human family? Was it wrong?" asked the bishop, who insisted that, if it was wrong then, it is now wrong, and that men should speak out regardless of the consequences. He insisted that all bickering cease within the race; sacrifice petty contentions for the common weal.

The speaker, at this point, recalled the Harper's Ferry incident and the causes leading up to it. He spoke of that gigantic struggle between the sections; for and against extending slavery territory, and of those memorable bills, among which was the Missouri Compromise, and of those decisions of the courts, among which was the Dred Scott case, and also of the Fugitive Slave law. These led up to the birth of the Republican party, the anti-slavery party with its matchless Lincoln, the great defender of the faith. The conscience of the people was likewise aroused and slavery saw the handwriting on the wall.

The bishop reviewed the period of progress and prosperity subsequent to the great war period. He felt that in the face of the highest civilization on earth, and in view of the progress of the race in every direction, that the "jim crow" car laws were travesties and disfranchisements no more than persecution.

"I am going to be plain," says he, "about what is best for the black man; a heart to heart talk. I will speak out for what is best. I observe that the laws are growing more stringent and lines tighter. There are many places in the North forbidding the colored man's entrance. Southern ideas are making their way northward. The Council of Boston this year departs from its annual custom of making an appropriation for the colored people of that city to celebrate in honor of the part the colored man played in saving the Union. The Negro has become a rapist in order to destroy confidence in him. Every newspaper, every pulpit, ought to do what can be done to insure the colored man his rights."

The bishop said that the white man has put a low estimation on the Negro because he puts a low estimation on himself, but the time has come for a change. All of our known agencies must be drafted into service—the school room, the church, the forum.

The bishop caused some little commotion when he insisted that some must counsel the division of the Negro vote—to defeat some Republicans; it would do us good "Change conditions. If things are getting better continue, but if they are getting worse, change policy. Make friends when you can do so without sacrificing your principles."

"I am of the opinion," says the speaker, "that Dancy, Price and others of the old North Carolina State could not have believed that that State could have acted as it has in the recent past. But what has that State done? Ask my friend Henderson of Indianapolis and others, they can tell you."

"Our educational opportunities are threatened," the bishop thought, "and, therefore, the churches should see to it that they gave the best schools possible. I am one with Mr. Washington in his industrialism. We need skilled hands to compete in the great struggle for existence; they go with higher education."

He does not think that contending for right will create arrogance and impudence as has been asserted. There are those who will do the wrong thing, but those are not to outbalance the race besides. "I believe in agitation," says the bishop, "no cause is advanced without it. Shall we organize? So doing may excite the white man's opposition, but to refuse will be the sign of weakness, which in the end will be as disastrous. Labor organizes against capital that it holds its own, and 'tis well that it does so or else the American white working man would be but a trifle better off than the colored man."

The bishop related a conversation with President Roosevelt, who said that they, meaning the general government, took care of the Negroes when they were unable to take care of themselves, but it was now time for them to take care of themselves.

He urged the ministers to take more interest in the welfare of the people Go out after them in, preach to them. The church can do much more than it is doing.

"Do less boasting" says the bishop, "but more solid work. Do not be discouraged. The whites have had three thousand years while you have had but forty. You have much to hope for. Let us learn to labor and to wait."

J. T. V. Hill, attorney, addressed the Y. M. C. A. last Sunday afternoon in their rooms, 316½ Indiana avenue. He spoke of the excellency of the Jewish character which he considered well worthy of emulation on the part of the colored people. They were noted for morality in general, and in consequence gave but little trouble to the communities wherein they resided He thought their strong racial adhesiveness had much to do with their conspicuous qualities Mr. Hill called attention to the tendency on the part of the colored youth to depart from the teachings of the parents. On the question of morality he felt that the race was not totally to blame for it was part of its former culture, to go out and multiply and the more multiplication the better the "nigger." It was the creed of slavery days; fearful legacy, the results of lessons taught by precept and example. He thinks that there is reason for congratulation, knowing what the race underwent. He admonished those present to see that their sons and daughters got the best education possible since much depended on it. He would not hear to it that parents could not govern their children. He suggested the generous use of the rod He, like many others, thought that the future viewed by the present was quite gloomy, but that much of the trouble lay at the door of the race, and that it was up to the race to see to it they carried out fully their part of the contract toward citizenship The South is menacing us with its restriction; we must be prepared for the day. Mr. Hill's talk was very generously applauded, proving that he was not alone in his characterization of the race and his summary of the racial situation.

Governor Aycock of North Carolina has offered a reward of $400 each for seventy-five men that participated in a riot in that State June 11. It is not very likely that this liberal offer of $30,000 will avail anything in the way of arrests and convictions, but it is in the right direction, and it will doubtless be considered so by the colored people and all right thinking people. The offering of rewards is not a new thing on the part of Southern governors. Time and time again rewards have been offered by the more courageous ones, but always with the same result. It simply goes to show that sentiment is often much stronger than laws. If the reward had been offered for "plain" murderers whose apprehension could have no bearing on the race question the governor's money would not go a begging as it does to day.

The sentiment for the division of the Negro vote was applauded by many at Blackford Street church at Bishop Walter's lecture.

The colored people of Indiana and of all the States are entitled to the protection of the laws of those States. They have also a right to be governed by the conventionalities of communities, and further yet, by the dominant sentiment. It does not take very long to ascertain what those are.—The Indianapolis Freeman.

It depends entirely upon what "the conventionalities of the communities" are, my moralizing friend. If the "conventionalities" be to lynch and burn colored people, it is very likely they will not care to be governed by them. Men in a civilized community are duty bound to abide by its laws, and at the same time have the protection of its laws. This, however, applies alike to all the people, regardless of race or color.—The Boston Guardian.

"It does not take long to ascertain what those are." We said it first; we say it last. Our friend from the East feigns ignorance on the question, but let it go at that. 'Tis his way, his method, only. The conventionalities are the unwritten laws of communities, an agreement on the part of the people to observe certain customs and usages that they deem for the general good of the communities as it concerns manners, decorum, the proprieties and such like. The conventionalities are likely to be the same in all civilized communities as to the end in view at any rate. It cannot be seen where they have to do with lynching, burning or other disorders. It may be seen, however, how the disorders may grow out of the breach of the conventionalities. But that is not the contention. The disorders are the result of the "dominant sentiment" which is a different thing in that it is stronger, subject to influences, the result of passion, high feeling or some new condition. It may be in opposition to mixed marriages which has nothing to do with the customs on the streets, deportment, cleanliness, etc.

The American Baptist of Louisville, Ky., thinks that some are little premature in the contention for place on the proposed commission, the result of the proposed Irwin bill. It is right; the thing to do is to contend for the passage of the bill, if that be the sense of the people. That paper thinks that there will be much objection to be overcome before the bill is enacted into a law, but it cannot be seen why there should be any serious objection to a measure that promises so much in allaying racial friction. The direct good may not amount to much, but it will be salutary, wholesome and reassuring to the colored people who are beginning to think that they are suffering from cold neglect.

The likenesses of Y. M. C. A. buildings, groups and individuals will be seen elsewhere in this issue. We are pleased to present them to the general public since they are indicative of the great work being done in that direction. Messrs. Hunter and Moreland are indefatigable in their labor for the young men. They are the international secretaries.

We take pleasure in calling attention to the Grand United Order of True Reformers of which may be learned from elsewhere in this issue. This organization is perhaps the strongest financial concern in America manned by colored men. It has lodges in nearly every State in the Union. It has never failed in its obligations to its members. It is a friend to the colored man.

The National Negro Business League will hold its next annual meeting at Richmond, Va., August 25, 26, 27, 1902. The meetings are growing in importance and should be encouraged by a generous patronage from all parts of the country.

News has reached Bishop H. M. Turner that he is a great-grand-father. The good bishop has had nearly all of the experiences to which human nature is heir. In spite of a multiplicity of other duties he has found time to rejoice a little.

Wm. M. Lewis of this city will appear in a lecture on Abraham Lincoln at Wayman Chapel, July 18th. He will be assisted by Prof. A. M Damon, the great violinist, Dr. S Furniss, Gurley Brewer and James M. Shelton.

The Indianapolis District Sunday-school Convention, which met at Wayman Chapel last week, was well attended throughout its interesting sessions. Rev. C. W. Thompson received deserved praise for his excellent management.

The Emancipation of the colored people of the West Indies and of the United States will be celebrated at Kokomo, Ind, August 1st. It will be known as the Double Emancipation Celebration

Strange to say the colored people are talking about dividing their vote and the Democrats refuse to receive them. Where will they get political comfort? Guess they'd better stay at home.

The "Informer" is a new publication of this city. It is in the interest of the Baptist denomination and an organ of the Baptist University. Rev. N. Seymour is the publisher.

The National Afro-American Republican League of the United States will meet at Springfield, Ohio, August 15, 1902. John G. Jones president.

FLANNER GUILD NOTES.

The Flanner Guild sewing class will be open to girls of all ages Tuesday, July 8th, at 2 p. m This department will be in charge of the Ladies' Auxiliary, and Mesdames A. E. Manning, Guthrie, J. T. V. Hill, Lillian Brown and Henry Hart will give instructions in the various kinds of needle work. At at meeting in the reading room of the Guild to consider the erection of the new building, Frank Vonnegut, chairman of the building committee, explained the urgent need of co-operation in the work. It is the object of the Flanner Guild committee to have the entire building the work of colored men. The following persons have pledged themselves to give of their time and skill in the erection of the building: Henry Baptist, Wm. Bogan, Carter Temple, John Hedgepath, C. Harrison, Frank Fletcher, B. Wade, John Flippins and Wm. Crittenden. Later other names will be published of persons who are planning to assist in the work.

BETHEL A. M. E. CHURCH NOTES.

When courtesies are extended visiting ministers they should have intelligence enough to observe the limits of decorum and not abuse the privilege granted them by insinuative and reflective remarks upon those in charge. Two things causes such impropriety—a lack of intelligence, or a "puffed up" sense of importance. The race is already cursed by the multitude of "funny" preachers, who are ever trying to say something "smart." The pastor is now on his rounds for conference collections. He will come in the name of the church as its agent, and his Master whose cause he serves, and as such you will not turn him away with empty and vain words. Greet him like a christian. The money realized from the picnic will be given to conference collections and not to the pastor. There are some worshipers that rainy weather does not keep away from church. These are "the armor bearers." The Lord's Supper will be administered next Sunday at 10:45 a. m. service. Those who love God, if possible, are sure to be there. All persons are invited, regardless of denomination, to our mass meeting next Sunday at 3 p. m., to send delegates to the Negro Young People's Christian Congress, Atlanta, Ga., August 6-11 A big music loving crowd will greet Prof Damon on the night of the 10th inst. There are many of our churches, generally speaking, that are in need of a cleaning out, so as to get out of old "ruts" A few clear-cut expulsions and a number of first class funerals would do the work—the pastor and a committee of earnest-hearted members could accomplish the first, and the Lord is sure to attend to the latter. Rev. R. D. Brister, S. D., of Washington, D. C., preaches for us Sunday night. Mr. Eugene Davis was baptized on Tuesday by the pastor at his home in E. Washington street.

JONES TABERNACLE NOTES.

The visit of Bishop A Walters, A. M. D. D., was highly appreciated by all, especially by the young men. The Blue Ribbons beat, but the White Ribbons will beat next time. The Good Samaritans will have their annual sermon at Simpson Chapel, Sunday, July 6th, 1902. Come. State Secretary of Kentucky Mrs. M. E Washington will read a paper on "Women." Prof. E. W. B Curry, president of Urbana College, Ohio, will be there. Mrs. Washington will lecture Monday evening, June 7th, at Jones' Tabernacle. Come. Bishop A. Walter's lecture was a grand success. The luncheon served by the famous caterers, Madam Bell Davis superintendent, and the solos rendered by Madam Lucretia Knox and Prof. Evans of the Y. M. C. A. were excellent and appreciated by all.

Headache

kills, not necessarily suddenly, but SURELY. It preys upon the intellectual powers more than we realize. It consumes the vitality faster than nature can replenish it, and we cannot tell just what moment a temporary or complete aberration of the mind will result. Headache and pain should be promptly removed—but properly. Many pain cures are more harmful than the pain. Beware. If you would be safe, take

Dr. Miles' Pain Pills.

"As a result of neuralgia I lost the sight of my right eye, and the pain I have suffered is incomprehensible, being obliged to take opiates almost continually. A friend gave me one of Dr. Miles' Pain Pills and it promptly relieved me. I then purchased a box and now my trouble is gone. They have also cured my daughter of nervous headache, and I heartily recommend them to others."—W. J. CORLEY. Bremond, Texas.

Tom Logan writes from Tampa, Fla: "Owing to the closing of the Mascotte Theatre here, I leave for "Good Old New York Town," this week. Will be found at my headquarters, the Douglass Club, 114 W. 31 street after July 7. My season here has been eminently satisfactory from every point of view and the closing of this house is due to the fact that the present proprietor is going out of business. I have demonstrated my ability as a manager to the extent that I have recieved some flattering offers even before I had severed my connection as manager here, but for business reasons I have decided to go to New York, ere accepting or considering them. My interests there demand my presence hence this decision. I have just finished a twenty minute vaudeville sketch for Desdunes and Harris entitled "A Bar Room Botheration," which they will present next season. I have also written a number of ballads comic and topical songs, which will also be heard next season as I am under agreement to a prominent New York publishing house for my creations for two years. Thanks to managers for so kindly remembering me."

Mrs. Prampin is the feature of the show among the colored constituents. The roster of the band is as follows: Harry Prampin, leader; Laura Prampin, solo cornetist; J. T. Hale, 1st cornet, Pedro Garcia, 1st clarionette, W. B Shelby, 1st alto; Will Marks, 2d alto; Shas Washington, 1st trombone; J. D. West, 2 d trombone; Bill Bostwick, tuba; Randolph Hunter and Steve Wheeler, drums. The Prampins send regards to Jean Jacques, Geo. Bryant. Will Dixon and wife; Mr. and Mrs. Hunn; McCarver Reed and McCarver and Goff Kennedy. Look out for the lady cornet soloist.

Notes from A. G. Allen's New Orleans Minstrels:—Business through our last and year before last towns is as good as ever and in some places better. The boys are just getting over their big time in Newport News, Portsmouth and Norfolk, Va. Chas. Goins, one of our ballad singers and leader of our Acme quartette had a pleasant visit from his mother, who met us in Raleigh, N. C., and spent two days with the show. Mr. Goins says, if we play his home the boys shall be made happy. Augustus Stevens had an operation performed on him at Raleigh, N. C. and will be compelled to remain there a week or so. His doctor and nurse are the best in this section of the country and claim they will send him to the company safe and sound. Joe Jordon, slide trombonist, was matched for a ten round go with an overgrown spider but was hit on the upper lip in the second round and was put out. Jake Spencer says he has something up his sleeve but the boys seem to think he will never spring it. The man in white continues to make his rounds every Sunday. Sank Simms is getting funnier every day. J Fernanda is still an early member at the cars every night. Cat Garland still knows everything and Cox eats more fish than anybody. While in Raleigh, N. C. we met Mr. Rufus Haywood and his orchestra, also Ben Toledo, the juggler. They are resting up. Ben seems not to know just when he shall sign out again. Pattie Roberson sends regards D. Thomas. Ben Bow sends regards to H. Troy and all friends in Montgomery. Cox and Arant sends regards to McCamon and Sam Johnson.

Notes from the Famous Georgia Minstrels:—"Back among the comicks again and are being received by welcome faces from the first. Our entire company spent Sunday in Winnipeg Manitoba. We are proud to say we were on British soil on coronation day and will also be in Winnipeg on Dominion Day and will be in our own country on the Fourth of July. So you can see how we are blessed in the way of catching holiday dates. W. A. Dixon sends regards to the clock tickers union, Mr. Dixon is soon to put on a solo from the opera, "Merry War." Our business is as good as usual and the weather is just beautiful. We are yet wearing our overcoats pleasantly. Our baseball team added another victory to its record at Portage La Prarie, the score being 6-5 in our favor. The team sends regards to Thos. F. Edwards their former captain and pitcher. We met quite a number of friends with the Campbell Bros.' circus in Crookston, Minn. They have a good show and and are seemingly treating the boys finely. Mr Brown a trombone player from St. Louis is with them and is doing well having the barber privilege among 250 people. Mr. Brown speaks well of the company. The circus company visited our show and was highly pleased. The big trio met some very staunch friends among them, especially Mr. Ike Shipley and wife, manager of the side-show and privilege department. Mr. Shipley acknowledged the members of the big trio, Cooper, Jones and Jackson and says they have a place any time they want to come back to the white tents They send regards to all friends in and out of the profession. Regards to Oscar Lindsay.

Notes from P. G. Lowery's Band and Vaudeville:—We find the Canadian people very free with their aplauses of appreciation; the weather very pleasant in temperature. We have been visited by several mild rains but no wind storms. Our visit to Montreal was one of much interest to the company as we spent three days in this beautiful city. We will spend three weeks in Canada before reaching the U. S. Henry Rawles and Johnie Jones are learning to speak French. They have decided to dispose of their altos and secure French horns instead. They claim that two heads are better than one. Ambrose Davis is receiving many offers for his quartette the coming season. Prentis Oliver is arranging a new act for the winter. Essie Williams wishes to be remembered to all friends in New Pork. Arthur L Prince sends regards to Gordon C. Collins. P. G. Lowery sends regards to Geo. Bailey, Jim Lacy, Henderson Smith, Harry Prampin, Fred Simpson and all other first class musicians and soloists. I am having my best season and if the big thing steers close to you come and see me. I will be glad to see you at any time and treat you royal. Dennis Lowery, Allen McClelland, Charley Payne and John Steward are the mysterious four. For further information address John Stewart secretary. Joe Scott, Jack Mayfield and William Baker had quite a pleasant time Friday night at Bell Blue park in Manchester. Captain Archie of cook house, No. 1, says that he has at present a better class of waiters than he had three years ago. The waiters of cook house No 1 and the performers had a baseball game last Sunday, the score being 8 to 4 in the perfomers favor. The waiters expect to do better next time. Seymore Payne better known as "raglan" is still holding his own.

SONGS AND SINGERS.

John W. Bratton's "In a Cosy Corner" seems to be the reigning instrumental success of the day. Hundreds of programs are received daily by the publishers, M. Whittmark & Sons, from the best orchestras and bands in the country with this composition on them.

A very clever pair of singers are Reidy & Currier. They have just started on their annual park engagements and are singing, "In the Springtime," "Your Own" and "Dear Old Pipe."

A new team in vaudeville and one that should prove a great success, will begin playing this week. Hubert Wilke and Bettina Gerrard have joined hands. and their new act said to be a positive novelty. Mr. Wilkie is singing his own compositions, "A Smugler Am I" and "Darling."

"Stay in Your Own Back Yard" and "Why Did They Sell Killarney?" seem to be great favorites with song illustrators. Hale & Orloff are using them successfully.

The celebrated contra tenor, Richard Jose is delighted with Frank C. French's late composition, entitled: "Just for tonight." This is a publication of M. Whitmark & Sons and will be featured by the well known singer during the comieg season.

PERFORMERS BEWARE.
(Answer to Pat Chappelle.)

Mr. Pat Chappelle knows every "rabbit" hollow in Florida. The manager of the Rabbit "heel" company, headquarters at Buckingham Theatre, Tampa, Fla., is anything but a gentleman and theatrical manager. He is a viper to the profession. I trust all freethinking Northern performers will stick up North. There is no brain or capital behind the organization—it's good old Florida gall. He should go way back, not to sit down but to bury himself. I find, Sylvester Russell in his 'write ups' has been very truthful in his remarks towards Chappelle. Read, consider and reflect. Your amusement friend,

JOHN W. DENNIS,
Domino Theatre, Fernandina, Fla.

P. S. I have known Dennis ever since he has been in Fernandina and know him to be a gentleman and a good performer. Respectfully,

E. A. LATHAM,
Attorney at Law.

ADDITIONAL LOCALS.

SIMPSON CHAPEL NOTES.

Services last Sunday were well attended in spite of the fact that at night we had our usual June evening rain. The Children's Day exercises at 11 a. m., were of a very interesting character, and reflected much credit upon the superintendent, teachers and scholars. A collection of $10 was taken. Tuesday was our picnic day, and in company with several other churches, the A. M. E. Zion and Barnes Chapel, we went to Bethany Park. Owing to the misbehavior of some who went there last week, whose conduct was of the most disgraceful character, it was currently reported that we would not be permitted to use the grounds, but there was no intimation of any desire on the part of the Park managers to break the contract, and 487 persons were able to spend one day in an enjoyable way. There was not an incident to mar the pleasure of the day, and the president of the Park Association paid us the compliment to say that it was the most orderly crowd, white or colored, that had been to the park this year, and that it would give them pleasure to see that we had it at any time we desired. Tomorrow is "Woman's Day" and the friends are invited to the special pentecostal services at 11 a. m. and 8 p. m. Mrs. Cassie Jackson will have charge of the spiritual part. The Good Samaritan Lodge will have their annual sermon to-morrow at 2 30 p m. A special invitation is extended our friends to attend the Epworth League on Thursday evenings. The State Convention meets at Roberts Paak church next Thursday and a great meeting is anticipated. Rev. Gilliam is vice president of the executive committee. He and the Choral society of Simpson are both on the program.

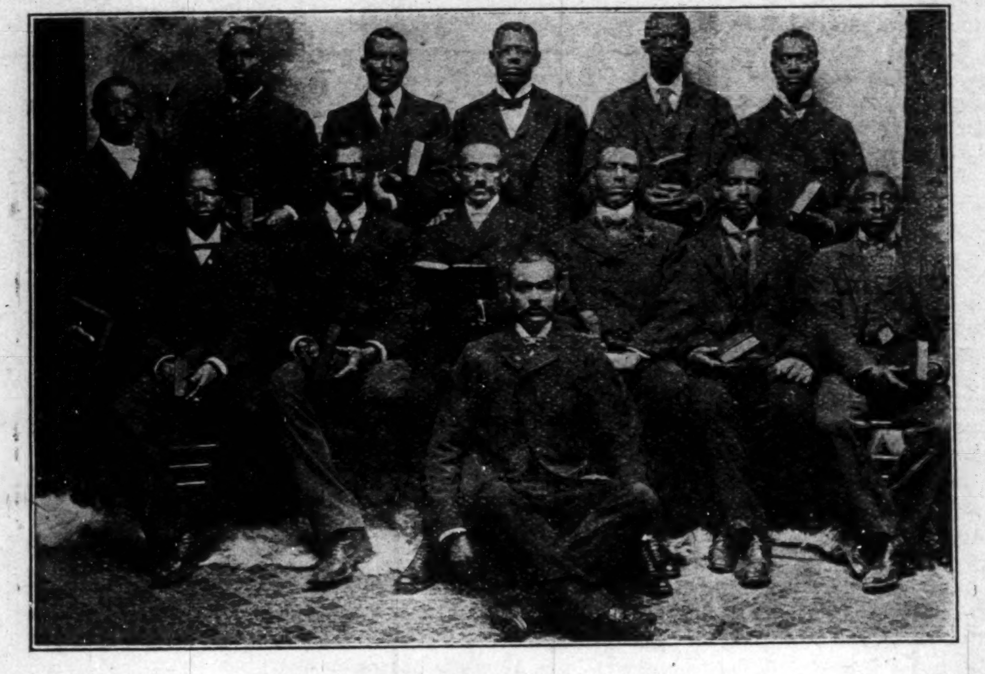
Y. M. C. A. WORK AMONG COLORED YOUNG MEN....

BY **J. E. MORELAND**, Secretary International Committee, New York.

A splendid beginning has been made by the Young Men's Christian Association among young colored men, and wonderfully well adapted are the methods of this organization to the peculiar needs of these young men.

It is only a beginning in view of the large, needy, and inviting field that has been in many instances only imperfectly touched or not touched at all.

In 1875 the International Convention of Young Men's Christian Associations met in Richmond, Va. The colored pastors of that city petitioned the convention to consider the needs of the young men of their race. The petition was received and prayer was offered for this new and important field.



BIBLE CLASS, RICHMOND, VIRGINIA.

In 1877 the convention met in Louisville, Ky., and the question was again considered. and resulted in favor of opening the work in this very needy field, and the Rev. Stewart Robinson, a Southern Presbyterian minister, made the first contribution to the work.

In 1879 Mr. Henry E. Brown, an Oberlin man, a Congregational minister, was chosen as the first international secretary, under the direction of the international committee at New York, to take up this work among the colored young men. Mr. Brown visited the schools and some important cities, creating Bible classes, and interesting and inspiring, in every way he could, the great number of young men throughout the vast Southland.

Mr. Brown labored incessantly until 1890, when Mr. W. A. Hunton, the first colored general secretary to enter the work, was chosen his successor. Mr. Hunton labored alone in this field of such great magnitude until November 1, 1898, when his labor was supplemented by the writer, giving his time specially to city work. So now there are two men supervising this field, that reaches from New England to Texas, and from the Atlantic beyond the Mississippi.

There are two main lines of work: The work among students, and that among young men in the cities. The student work is of great importance to our young men. To quote from the constitution will show the object of this association: "The object of this association shall be to promote growth in grace and christian fellowship among its members, and aggressive christian work, especially by and for students, and to lead them to devote their lives to Jesus Christ, not only in distinctively religious callings, but also in secular pursuits." Much emphasis is placed upon Bible study and personal work among the students, which has resulted in bringing many young men to Christ, and many others to a firmer purpose to serve Him in all their ways. Many of the revivals in our colleges have their beginning in the young men's meetings.

The associations are not able, nor are the institutions, where they are formed, strong enough financially to have well-equipped buildings. The students generally have a room, which, in most instances is set apart for their exclusive use, where they hold their meetings. They make the room as cozy as their means permit, usually have some books and papers for the use of the members, and in some instances a piano or organ.

There are 65 associations in colleges and normal schools, and there are 40 or 50 more that need to be organized. It is fitting to give testimony from President D. J. Sanders of Biddle University, and Principal Fissell of Hampton Institute.

President D. J. Sanders writes as follows: "It gives me great pleasure to bear testimony in favor of the helpfulness of the work of the Young Men's Christian Association in Biddle University. The organization has been sustained in the institution for eight or ten years and its great benefit has been increasingly manifest as an effective christian force among the young men of the school. The series of meetings recently held under the auspices of the association resulted in the conversion of a goodly number, and greatly revived the spiritual life of the community. The present year, 1899 and 1900, the record shows that out of 227 all but twelve are professed christians. This condition is due largely to the Young Men's Christian Association as an instrument in the Master's hands."

Principal H. B. Frissell, of the Hampton Institute, says: "I am very glad to express my appreciation of the work of the Young Men's Christian Association in Hampton Institute. Its influence upon our young men has been most marked. It has bound them together as no other organization in the school has ever done: it has made the older ones more careful and thoughtful of the newer students, and its general effect has been most salutary."

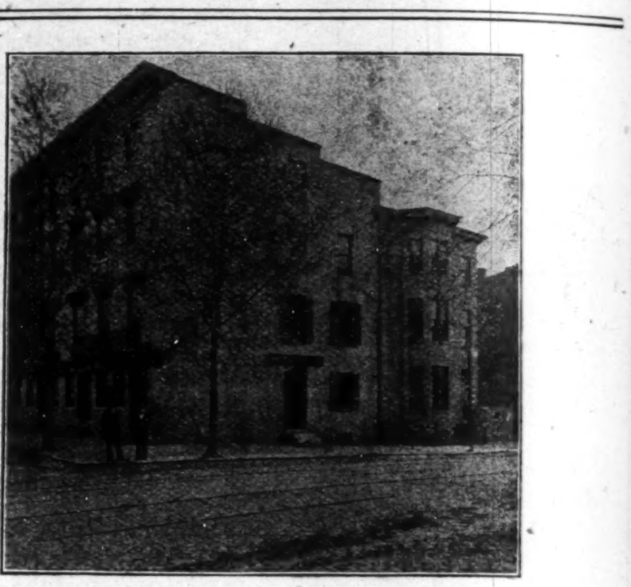
The first substantial effort made among the colored young men in city work was in Norfolk, Va., in 1888. This work is more difficult than the student work. Mr. W. A. Hunton, now secretary of the international committee, was the first general secretary of this association. A short description of the buildings and the work carried on there will give a very fair idea of what is being attempted in the twenty-five cities and towns where we have organizations.

The Norfolk building has on the first floor two store rooms for rent, gymnasium, baths, lockers and rooms for educational classes; on second floor, the secretary's office, reception hall, parlors, reading room, library and boys' room on the third floor, spacious hall for Sunday meetings and lectures. We attempt to aid the church and help the young men by providing a proper place for young men to spend their leisure, surrounded by wholesome literature and innocent amusements. We welcome the stranger, and try to win those who have not surrendered their lives to Christ. We have a field that is not touched by any other agency. In most of the cities, especially Southern, there is no respectable place, outside of home and church, for a young man to profitably spend his evenings. We are trying to meet this need and offset the saloon and club, with their baneful attractions, which are corralling thousands.

We have a secretary giving his entire time at each of the following places: New Haven, Conn.; Baltimore, Md.; Norfolk, Va.; Richmond, Va.; Louisville, Ky.; New York City; Petersberg, Va.; Atlanta, Ga.; New Orleans, La. Charleston, S. C.; Indianapolis, Ind.; and also our assistant secretary at Norfolk.

The associations are in possession of property aggregating $30,000 in value. An important feature of our work is the conferences held each year where delegates are assembled from each association. Methods in Bible study and of association work are discussed. These conferences have been followed by special meetings and many students are converted, in one case over one hundred at one college. The past year four conferences were held, and at Charleston, S. C., 500 men attended the men's meeting and nineteen were converted.

JOHN EVANS.



THE BALTIMORE BUILDING, PURCHASED 1898

This movement is one of the departments of the Young Men's Christian Association, is interdenominational, and uniquely fitted to do great good among our people. It is bringing men of different denominations closer together—a thing sadly needed among us. It is providing some means to get hold of the boys of to-day who will be the men of to-morrow. It is calculated to help ease race friction "that they may be one," is our motto. It is under the direction of the international committee, 3 W. Twenty-ninth street, New York, which brings it into vital touch with the American movement which has had such phenomenal growth.

This agency is not to overshadow any other, but is one of the forces necessary in this complex civilization of ours to help bring the kingdom of our Lord on earth among men as it is in heaven.

K. of P. Grand Lodge Meeting.

Steubenville, O., Special.—The 15th session of the Ohio state grand lodge of Knights of Pythias goes down in history as one of the most interesting sessions of its existence. It convened in Odd Fellows' hall June 17, 18 and 19. There were present four supreme officers, fifteen grand officers and fifty-eight delegates. The court of Calantha held grand sessions at the same time at K. of P. hall, and a great many grand lodge officers and delegates were present. These grand bodies are composed of some of the leading men and women of our race. The officers, delegates and visitors expressed themselves as gratified with the home entertainment tendered them by the people of this city. Among the interesting features of the occasion we might mention the musical on Tuesday evening, boat excursion Wednesday evening, the street parade Thursday evening, closing with a banquet at night. Next year's meeting will be held at Xenia. Quinn Chapel A. M. E church is now undergoing repairs and will be a beautiful structure. Stanton Park is one of the most beautiful places in the city. Rev. C. T. Lewis preached the annual sermon to Eastern Light Lodge No. 64, F. and A. M., on the 22d. Luther Ford and Miss Isabella Wooden were married at the Sixth Street M. E. church on the 18th ult. The wedding was up-to-date. Rev C. T. Lewis officiated. The Sixth Street M. E. Sunday school picnic will be held at Stanton Park on July 10th. RACE GLEANINGS.

The United States barracks is the last place we would go to look for race prejudice and hell-born cast, yet Dr. R. C. Ransom of Chicago while on a visit to Atlanta last week, was told by the guard at the gate of Fort McPherson, that "no Negro was allowed to enter." Will the Young People's Christian and Educational Congress, which convenes here in August fair any better? This is an important gathering, but if it to be had at the great sacrifice of self-respect, manhood and common decency, it is too costly and should be abandoned.

Editor Murphy of the Afro-American Ledger, has been having experiences with the "Jim Crow Car," and other discriminations and proscriptions which places a libel on the professing Christianity, in whatever section it is tolerated and practiced. When Editor Murphy comes to Atlanta to attend the Christian Congress in August he will see this hellborn caste and race prejudice and unjust discrimination in its worst form, except things changes a great deal, which is not very probable.

Of the fifty colored boys were graduated from the Richmond Colored High School in the decade 1873-'83, twelve have died. At the time of death one was a contractor, one a professor of ancient languages in a college, three were postal clerks, and others, respectively, were internal revenue collectors, a candy-maker and preacher. Of the thirty-eight still alive, thirteen are teachers, three are doctor, two are journalists, five are postal clerks, one is a civil engineer, one is a clerk, two are book-keepers, one is a bank president, and so on. Not one of the thirty-eight now living has ever fallen into disgrace.

A prosperous and successful year's work has just closed at Shorter University, Little Rock. They had a largely increased attendance in all departments This school is one of the best of its kind in the connection, and on account of its location and opportunities is destined in the near future to equal if not excell any of our schools. The management of this school is excellent and the work that is being done quite satisfactory. The faculty is a good one. Dr. Phillips the president of the board of trustees and Dr. Jackson, the president of the school expect a larger attendance at the next school year than ever before in the history of the college. Jottings and Church News.

Greenfield, Tenn., Special.– The services at the A. M. E. church Sunday, the 22d, was grand; two able sermons were rendered by Rev. Vann to a crowded house. There is still some few friends on the sick list. Mrs. Jane Mosley died on the 20th. Mrs. May Fly died last week at the home of her daughter in this city. There are several visiting friends in town. We are in sympathy with Mrs. Alcy Watt on account of losing her mother a few days ago, the best friend she had. We are making preparations for a grand barbacue on the 4th, 19th and 28th of July, Charlie Richie made a fine lecture at C. M. E. church last Sunday week. We feel proud of Rev. Richie as he is one of our home boys, and has quit associating with bad boys and is begging them to quit their wicked ways. The young folks send many thanks to Mrs. Lizzie Latham for the enjoyable ice cream supper given them Thursday night at her ice cream parlor. You can get cream there every Sunday evening. We are greatly benefitted by The Freeman as we hear from our distant friends. Mary Malone sends regards to her brother, F. F. Malone, 114 Jefferson street, Dallas, Tex , and would be glad to hear from him. Mrs. Malone returned to her home, Durant, Miss , after a visit with her mother and friends here. Do not forget that Rufus Berry has The Freeman for sale.

Boiled Brevities.

Hot Springs, Ark., Special.—Grant S. Neal, traveling representative of the Indianapolis Freeman, after spending a few weeks here in the interest of The Freeman, left on Thursday, the 19th, for St. Louis, Mo. Dr. Strong, formerly pastor of Haven's Chapel M. E. church of this city, now teacher in Philander Smith's College in Little Rock, Ark , preached an able sermon at Haven's chapel M. E. church, Sunday night, the 22d. Robt Miles died on Saturday, the 14th, and was buried from Visitor's chapel A. M. E. church, Sunday, the 15th, at 3 p. m., with Odd Fellow honors, Rev. A. E. Torrence officiating. Mr. Vaughn, an aged and respected citizen of this place, died on Saturday, June 21, and was buried Sunday morning from Roanoke Baptist church, Rev. J. W. Jackson officiating. Mary Fletcher Murphy, the 8 months' infant of Mrs. Murphy on Cedar street died on Saturday, June 21, and was buried from the residence Sunday at 3 p. m. Harry Pryor, while projecting with a loaded pistol on Saturday, the 21st, accidently discharged it, the ball hitting Teenis Dill, killing him instantly. They were both boys and on good terms with each other. Harry Pryor was discharged in view of the fact that the verdict rendered was accidental shooting. Let this be a warning to all boys that are in the habit of playing with each other with knives and pistols. Children's day was celebrated at Walter's chapel A. M. E. Zion church on the 22d. A very nice program was arranged for the occasion. Collection raised for educational purposes was $2.05. Zion is coming. Rev M F. Fulford is pastor. Revs. P. H Lewis, J. W. Jackson and Eugene Page returned home Sunday, the 22d, from the Baptist Sunday-school convention held at Morrilton, Ark.

A Noted Beauty Entertained.

Nashville, Tenn., Special —Miss Lena M. Blakey, the noted Clarksville girl, whose beauty, wit and brilliancy has attracted marked attention here, as in other cities, has been a welcome and royal guest here during the past fortnight, during which time she has made hosts of friends within the social and other circles of the elite wherein she has graced the occasion. She attended the notable commencements of Pearl High school and Fisk University, and informs The Freeman correspondent that they were par excellent. Miss Rosa Caudle of Clarksville is in the city, the guest of Mrs. C. A. Kelly. Mrs. C. Watson, the well-known tutor of Clarksville, is in the city spending her annual furlough. This city has started the ball to rolling by opening up establishments that will give employment to scores of our young men and women. This is a good thing, and the colored folks should co operate in pushing it along by lending their support and patronage. It is a long felt want that will induce emulation in making the race problem a thing of the past.

GLOSSINE

The True Hair Grower and Hair Straightener

IS FOUND AT LAST.

Acts Quicker. Smells Sweeter, and Easier Applied than Any Other Preparation.

IT WILL TAKE THE PLACE OF ALL OTHER HAIR TONICS.

WHAT GLOSSINE WILL DO.

Cures Dandruff, Tetter, Itch, and all Scalp Diseases at once and forever. Straightens curly troublesome Hair in from 7 to 30 days, without the use of hot irons or any other mediums. When the Hair has become straight, which it surely will if you use GLOSSINE, it will stay straight forever. It will stop the Hair from falling out in 2 to 4 days. It will restore Gray Hair to its natural color in 30 to 60 days. It will grow Hair on the baldest head in from 10 to 40 days. It will improve the hair at once. You do not have to wait. Just as soon as it is applied the Hair will become soft, lustrous, pliant, and wavy, so that you can dress it in any style you wish. It has never failed to straighten and beautify the most obstinate, curly, refractory, troublesome Hair, and will be sure to give you supreme satisfaction. It is good for all kinds of Hair for white or colored, for ladies and gentlemen, children or grown-up people, babies, and boys and girls. Good for the Hair, the Mustache, and the Eye-Brows. It is made from roots and herbs and leaves, and is so harmless that it can do no injury—not even to a three-day-old baby. Three boxes are sure to complete the treatment, and in most instances one box alone is sufficient, It is very cheap—50c. for an extra large size box, or $1.00 for three extra large size boxes, guaranteed a full and complete treatment. You will never have to use more than three boxes. After you have used that quantity your Hair will be in a perfect condition, and you will never have to use any Hair Tonic of any kind again. It is the greatest wonder of the century, and will take the place of all other Hair Tonics now on the market. No one, after once using GLOSSINE, will use any other Hair Tonic, because there is nothing to equal it in the whole wide world. Everybody be they white or colored, old or young, who will only use it, cannot fail to have a beautiful head of long, fine Hair. It is a wonder and as sure as sunrise. Who is it that will let a $1.00 bill prevent them from having a beautiful head of Hair?

Straight University

NEW ORLEANS, LA.

OSCAR ATWOOD, A. M., President.

One of the best ways to judge of the value and standing of a school is by its growth, for people who care enough about an education to patronize any school, always want the best school, therefore the best grows. The attendance at Straight University has increased over thirty per cent. in the last two years, from 538 to 708 students. The school work is thorough, the boarding department far better than the average, and the influences surrounding the pupils elevating and helpful: Of the students last session about one hundred were boarders at the school. They came from all parts of the South. They are Catholic and Protestant and the latter from Methodist, Baptist and Congregational families. Their religious preferences are not interfered with, and they are allowed as far as possible to attend the church selected by their parents. This is another reason why Straight is popular. We try to train them to be honest, upright men and women, to fit them to be useful citizens. The school is open to all but the boarding department does not receive young children. The primary school occupies a separate school building. The grammar school consists of grades five to eight inclusive and above these are the Normal and College departments. The industries taught are Woodworking, Drafting, Sewing and Dressmaking, Millinery, Printing and the different kinds of housework. These departments are well equipped with the necessary machines, tools, etc., and provided with experienced teachers. We know of no similar institution which offers so many advantages at so small expense as Straight University. It is not necessary to urge the importance of an education in these times. The main thing is the selection of a good school.
